

**Title: St Ninian's Primary School**  
**Client: Stirling Council**  
**Location: Stirling**

**Project team:** Robertson Capital Projects/hub East Central Scotland, Robertson Central (contractor), AHR (architect), Morgan Sindall Professional Services (civil & structural), Atelier Ten (building services), Brownriggs (CDM Coordinator)

*"I was delighted to officially open the new St Ninians Primary and help celebrate this exciting new chapter in the school's history - the performances by the pupils today were truly fantastic. It may have been the opening of a new building, but a school is so much more - it is a tool to educate our young people and give them opportunities, and I hope the pupils and staff enjoy their new surroundings."*

Councillor Neil Benny, Deputy Council Leader and Convenor of the Finance and Economy Committee

- Robertson reporters
- Giant tetrahedron
- Time capsule

#### Key statistics

- **VALUE:** £8,352,527.53
- **COMPLETION DATE:** July 2017
- **CONTRACT DATES:** 20 months
- **TOTAL USERS/RESIDENTS:** 459 primary pupil capacity + 40 nursery children + school staff
- **REPLACEMENT DETAILS:** Redeveloping the existing school was not a viable option, so it was decided to create a new school on the same site.
- **LOCAL EMPLOYEES:** (Q2 2017) 34.11%

## Project information

- The project replaces the existing St Ninian's Primary School
- new facilities provide accommodation for a maximum of 459 primary school pupils and 40 nursery children aged 3 to 5 years. The design allows for future expansion via provision of an additional four classrooms to the teaching wing to accommodate an additional 132 pupils.
- Provide a learning and teaching environment fit for the 21st century that is flexible and adaptable to keep pace with changes in education.
- Comply with Scottish Schools for the Future grant funding requirements and in particular to work within the primary school programme metrics.
- Take account of Scottish Government/CoSLA vision in 'Building Better Schools: Investing in Scotland's Future' and all current/relevant standards in relation to school design/construction.
- Meet Care Inspectorate's standards in relation to the nursery environment.
- Deliver appropriate external facilities to ensure that the 'daily mile' initiative can continue and all pupils can benefit from well-designed external spaces despite the restricted urban site/setting.
- Allow for welcoming and flexible use of the accommodation by the wider community after school hours.
